Re: New Benefits for Associates

Dear Associate:

Rx Pro Health is excited to announce that we have made a change to our group health insurance for our regular, full time associates. In order to become eligible for benefits, you must work a minimum of 34.5 hours per week. These benefits will go into effect at the beginning of your first assignment and will continue as long as the hourly requirement is met.

Rx Pro Health is pleased to offer group health insurance through Great-West Healthcare. Please reference the Benefits Summary document for all details on premiums and eligibility. Insurance options include medical, dental, vision, and voluntary life insurance coverage.

Information will be sent to eligible associates after they have met the requirements stated above. If you have any questions about this new benefit, please email them to amy.dreis@travelerservices.com, call the Traveler Benefits Department at (877)744-1546, or contact your recruiter.

Thank you for all your hard work!

Sincerely,

Jason Atlas RPh, MBA
Director of Pharmacy Operations
Rx Pro Health
